Before the rain had crased harrows were put to work in the vain endeavor to dry out the track to permit the match being run. The water had sunk too deep, however, and the absence of the sun all the morring made it all the more difficult.

vertised. They could race on Saturday, however.

The rest of the programme was a fair one, but the postponement of the match caused a lark of interest in the rest of the card. An extra race at hair a mile for two-year-olds was arranged. Thus there are six races, but live out of six were down the straight course, and in consequence were uninteresting.

The attendance was not large. Many hundrals of people were probably kept away by the false report sent out by the Theker people to the effect that all the races were postposed. Mr. Morris has offered \$500 reward for information which will lead to the arrest of the man who sent out the announcement. The first race contained only five starters with Chesapeake a hot favorite and the others well backed. Mary Stone was played heavily for a good thing.
